

Comeragh College Parents Evening 2022

Leaving Certificate Subject Choice

Agenda

- Leaving Certificate Subjects on offer
- Procedure for subject choice
- How best to choose subjects
- College Entry Requirements

Leaving Certificate

Students at Comeragh College study 7 subjects for the Leaving Certificate

Students study Irish, English, Maths and then choose 4 optional subjects

The optional subjects are*:

French/German/Spanish

Art

Music

Home Economics

Business

Accounting

Economics

Agricultural Science

Biology

Chemistry

Construction Studies

Design & Communication Graphics

Engineering

History

Geography

*Subject to change based on student uptake/teacher allocation

Subject Choice Procedure

Parents' Information Evening

Guidance Counsellor gives similar presentation to students

Teacher subject choice assembly for all incoming 5th years (booklet provided & can be reviewed by parents)

Subject Choice Preferences (1-8) to be filled in through Microsoft form sent via text and on website by Wednesday 6th April, 9 a.m.

Parents can email Ms.O'Neill on goneill@tipperaryetb.ie with any queries.

How to choose subjects

It is important to consider the following when choosing your subjects:

1. Interest
2. Ability
3. Career Aspirations
4. College and Course requirements
5. General subject package / subject balance

The most important thing is to.....

- Choose subjects that YOU enjoy
- Pick your subjects based on YOUR interests- not your friends or not based on the teacher you think you will have
- You will be the person completing the homework and study for the subject so you want this to be as painless as possible!

How can I help as a Parent/Guardian?

- Talk through each subject that your son/daughter is interested in
- Read through the subject choice booklet with them
- Show your concern if you are worried about a certain subject they are choosing
- Ensure that they fill in their subjects in **order of preference** with 1 being their favourite

Leaving Certificate Grading System

+25 Bonus points for H1-H6 maths

LCVP link modules

Distinction 66

Merit 46

Pass 28

College Entry Requirements

- It is important to keep in mind that colleges have basic entry requirements to take up any course at that institution
 - e.g. W.I.T. require 5 O6/H7s including a pass in ordinary level Maths and English or Irish
 - e.g. U.L. require 2 H5s & 4 O6/H7s including a pass in Maths, English and Irish or another language
- In addition to college basic entry requirements, courses often have individual entry requirements
 - e.g. Mechanical & Manufacturing Engineering Level 8 W.I.T requires 2 H5s and 4 O6/H7s which must include English or Irish and O3/H7 in Maths
 - e.g. U.L. Food Science & Health must have O3/H7 in Maths and a H4 in a Science

College Entry Requirements

- Do I need to study a Language (French/German/Spanish)?

- If you want to study a course that contains language learning such as International Business/ European Studies/ Applied Languages
- If you want to become a cadet in the Army, Air Corps, Navy
- Most courses in UCC/ Maynooth University/ UCD / NUI Galway require a third language including Arts, Psychology, Social Sciences, Media, Medicine, Dentistry, Pharmacy, Occupational Therapy, Speech & Language Therapy, Commerce/ Business (except in Maynooth). Students with a language exemption can apply for these courses.
- Many Science, Engineering, Nursing, Primary Teaching courses do not require a third language. Primary Teaching requires a H4 in Irish and minimum O4 Maths and English.
- The Guards require you to have two languages studied for Leaving Certificate ie. English with Irish or another Language (if you do not study Irish you would need French/German/Spanish)
- Polish/Russian/Lithuanian etc. are considered as a language for entry into college

College Entry Requirements

- Do I need to study a Science Subject (Ag Science/Biology/Chemistry)?

- If you want to study a Science or Health Science (Nursing, Physiotherapy, Medicine, Vet Nursing etc.) related course you will need to have a Science subject
- If you are interested in Primary Teaching the UK require you to have a Science subject (including for the Postgraduate in Primary Teaching)
- Some courses require a specific Science subject or 2 Science subjects and it is important to check the entry requirements for Science courses of interest
- *e.g. Veterinary Medicine, Human Nutrition/Dietetics requires you to have Chemistry, Medicine UCC requires Chemistry and Biology*

Consider **Required** and **Useful** Subjects

- When choosing your Leaving Certificate subjects it is important to consider the subjects that are **required** for entry onto some courses and the subjects that may be **useful** for courses of interest
- A **required** subject means that without that subject you will not be able to get a place on the course
- A **useful** subject means it is not essential for entry onto the course but it may have something in common with the course content

For example: Home Economics Teaching in St. Angela's College, Sligo requires a pass (O6/H7) in English, Irish, Maths and a Language. It also requires a pass O6/H7 in a Science subject.

This means that Home Economics is not required as you could gain entry with Biology/Chemistry or Ag Science but Home Economics would be a useful subject to have for the course.

Post Leaving Cert Courses & Apprenticeships

Most P.L.C.s & Apprenticeships will look for 5 passes (O6s & H7s). Some apprenticeships will require OL Maths. Consider subjects that might be helpful for the PLC or Apprenticeship even if not required.

- Construction is not required for a Carpentry apprenticeship but may be helpful.
- Art is not required for a PLC in W.C.F.E.'s Photography and Digital Media but may be helpful.
- Biology is not required for entry to Beauty and Hairdressing courses.
- Suitability for entry to PLC courses is determined by an application form and interview.

Key Messages

- **Interest** in the subject is the most important thing to consider for the order of subject preferences
- Take the decision seriously- these are subjects you will spend a lot of time on both in school and at home for the Leaving Certificate. Once your choices are inputted, they are final.
- Ask questions, talk to people
- If students don't have an idea yet of what they would like to study after school, it is good to choose a variety of subjects to keep options open.
- Students need to research any colleges and courses they think they might be interested in to ensure they choose subjects that might be required. Talk to your Guidance Counsellor if you have a question about entry requirements.
- Do not make the decision based on your friends or the teacher you think you will have!
- No school can give all students all the subjects they want- we will try our best to give students as many of their preferences as possible.
- Students/parents must complete their preferences via Microsoft Forms by Wednesday 4th April, 9.a.m. **Order of preference is absolutely essential.**
